

Betrimex Farmer Feedback and Observations by Lot (Additional)

Reference basis: Gold data dictionary + data source description (fact_intake fields).

Referential integrity: lot_id -> farmer_id validated against raw lots.csv and farmers.csv.

1) Lot: LOT-0000617

- Farmer ID: 19230
- Farmer Name: Co Huong Le
- District: Tra Vinh
- Certification: Certified Organic
- Intake Date: 2025-10-22
- Collection Point: Cang Long Hub
- Weight (kg): 132.5
- Brix: 5.59
- Grade: B
- Organic Lot: True
- Positive Remark: Harvest compliance was good and organic documentation was complete.
- Negative Remark: Lot sweetness and volume were below preferred target levels.
- Operations Observation: Small lot size with moderate brix; monitor next deliveries for uplift.

2) Lot: LOT-0008098

- Farmer ID: 5077
- Farmer Name: An Bao Hoang
- District: Vinh Long
- Certification: Certified Organic
- Intake Date: 2025-10-22
- Collection Point: Vung Liem Hub
- Weight (kg): 109.5
- Brix: 6.15
- Grade: B
- Organic Lot: True
- Positive Remark: Delivery timing was reliable and brix was acceptable for processing.
- Negative Remark: Delivered volume was low, limiting run planning flexibility.
- Operations Observation: Good compliance signal but constrained by low intake weight.

3) Lot: LOT-0006984

- Farmer ID: 26602
- Farmer Name: Nhat Hoang
- District: Ben Tre
- Certification: Non-Organic
- Intake Date: 2026-03-13
- Collection Point: Giong Trom Hub
- Weight (kg): 235.9
- Brix: 5.82
- Grade: A
- Organic Lot: False
- Positive Remark: Strong lot size and Grade A classification supported production readiness.
- Negative Remark: Brix was modest for a Grade A lot, indicating quality-mix variability.
- Operations Observation: High-utility lot for volume; follow-up on sweetness consistency.
